

WITHLACOOCHEE REGIONAL WATER SUPPLY AUTHORITY

Board Meeting
March 15, 2017

Item 8. SWFWMD Cooperative Funding Policy Changes

Richard S. Owen, AICP
WRWSA Executive Director

Item 8. SWFWMD Cooperative Funding Policy Changes

11. Construction projects estimated to cost over \$5,000,000 will undergo a third party review at the completion of the 30 percent design stage. This review is to confirm the project cost, schedule, and ability of the project to meet the proposed resource benefit. Additionally, projects that cost between \$1,000,000 and \$5,000,000 that staff has determined will benefit from a third party review will also undergo such review at the completion of the 30 percent design stage. Results of the third party review will be presented to the Governing Board for approval before the project can proceed to final design.

Item 8. SWFWMD Cooperative Funding Policy Changes

The following additional guidelines apply to potable alternative water supply projects:

14. Consistent with Section 373.707, Florida Statutes, the District shall prioritize funding for alternative water supply projects as follows:

- Highest priority - Alternative water supply projects owned, operated and controlled, or perpetually controlled by a Regional Water Supply Authority (RWSA).
- Medium priority - Alternative water supply projects that are not owned, operated and controlled, or perpetually controlled by a RWSA, but meet the definition of multijurisdictional.
- Lowest priority - Projects that do not meet the multijurisdictional criteria.
~~Funding for these projects would be limited to consideration by the appropriate Basin Board(s). (note: modification to this policy will be discussed by the Board as circumstances arise)~~

Item 8. SWFWMD Cooperative Funding Policy Changes

The following additional guidelines apply to potable alternative water supply projects:

17. All potable alternative water supply projects will be required to identify the quantity of alternative water supply that will be made available upon completion of the project. It is the intent of the District's Governing Board that the quantity made available will be used as "base supply". The base supply will be clearly defined by the cooperator on a project-by-project basis-and will include, but not be limited to, the overall alternative water supply system capacity, typically expressed in million gallons per day, the expected annual average use for the life of the project, as well as the frequency and timing of use of the available alternative water supply quantities. The base supply defined by the cooperator will be reviewed and approved by the Governing Board as a part of the Cooperative Funding Initiative project review and budgeting process. The cooperative funding agreement between the District and the cooperator will include the base supply requirements approved by the Governing Board. The Governing Board may consider adjustments to a project's base supply quantity and definition by amendment of the cooperative funding agreement.

WITHLACOOCHEE REGIONAL WATER SUPPLY AUTHORITY

Board Briefing
March 15, 2017

Richard S. Owen, AICP
WRWSA Executive Director

Outline of Presentation

- Authority Mission and Service Area
- Organization, Representation and Funding
- Statutory Powers
- Work Program

Water Supply Authorities

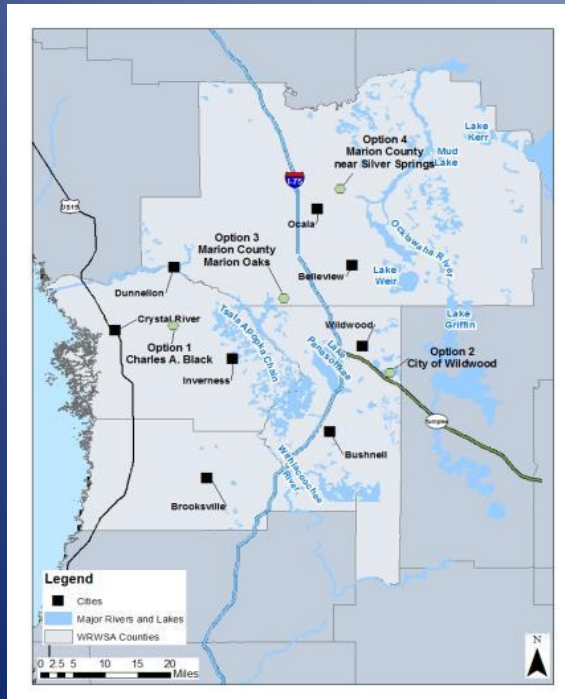

- Authorized by Chapter 373.713, Florida Statutes
- Created by Interlocal Agreement among four counties, pursuant to s. 163, F.S.

Chapter 373, F.S., Statutory Charge

373.713(1) . . . regional water supply authorities may be created for the purpose of developing, recovering, storing, and supplying water for county or municipal purposes in such a manner as will give priority to reducing adverse environmental effects of excessive or improper withdrawals of water from concentrated areas.

Chapter 373, F.S., Statutory Charge

- Plan for future water supplies for member governments

- Locate, develop, deliver wholesale water supply to member governments as needed

WRWSA

- Originally Created in 1977
 - Concern regarding water transfers
- Interlocal Agreement Amended several times
 - Most recently updated in 2014
- Citrus, Hernando, Marion and Sumter Counties - Signatories

373.713, F.S., Powers

- Develop, recover, store and supply water for county and municipal purposes
- After approval of electors, can levy ad valorem taxes up to .5 mills
- Collect, treat, store waste water
- Exercise eminent domain
- Issue revenue bonds
- Sue and be sued
- Borrow money & incur indebtedness
- Not engage in local distribution

Other Functions

- Forum to discuss regional/state water issues
- Provide for long-range water supply planning
- Provide a presence and input to State legislative process
- Assist local governments in water supply issues

Mission Statement

- The WRWSA is a multi-county special district of the State of Florida charged with **planning for and developing** cost efficient, high quality **water supplies** for its member governments. The Authority promotes environmental stewardship through its water conservation programs and in the future will develop **alternative water sources** to augment groundwater supplies to **meet the region's long-term needs**.

Service Area

Board Representation

County	Number of Commissioners	City Representative	Total
Citrus	2	1	3
Hernando	2	1	3
Marion	3	1	4
Sumter	2	1	3
Total	9	4	13

Funding Sources

- Local Assessments
- Charles A. Black Wellfield Revenues
- Cooperative Funding from SWFWMD and Project Partners

Local Assessments

- Provided for in Interlocal Agreement; currently 19¢ per capita
- Based on latest published BEBR population estimates
- Provides for administration of the Authority

County	Contribution
Citrus	\$26,885
Hernando	\$33,596
Marion	\$64,829
Sumter	\$21,975
Total	\$147,285

Charles A. Black Wellfield

- Constructed in 1988-1992
- SWFWMD grant of \$4.7 million
- New Water Supply Contract with Citrus County approved September 2016
 - Fixed payment amount to volumetric rate
 - \$0.1335 per 1,000 gallons pumped
- Projected to provide approximately \$224,000 annually

SWFWMD Cooperative Funding

- 50% Cost Share Funding Program
- WRWSA has received funding for:
 - Wellfield Development
 - Long-Range Water Supply Plans
 - Hydrologic Investigations, Ground Water Modeling
 - Water Conservation Projects
 - \$100,000 for Phase 4 of the Irrigation System Audit Project

Water Conservation Efforts

- Cooperative grants to member governments for water conservation projects.
- Co-funded Water Conservation activities in Hernando, Citrus and Marion counties and The Villages to carry out water conservation education programs.
- WRWSA and SWFWMD are co-funding a multi-year, region-wide residential irrigation audit program with Hernando, Citrus and Marion counties and The Villages.

Population served by Public Supply Utilities in WRWSA Member Counties

**WRWSA Regional Water Supply Plan
2014 Update Completed**

The Withlacoochee Regional Water Supply Authority Regional Water Supply Plan 2014 Update (Plan) is now available and may be viewed on this website at www.wrwsa.org/2014RWSPUpdate.htm. The Southwest Florida Water Management District (District), through its Cooperative Funding Initiative, and the WRWSA jointly funded the development of this document.

The Plan is an assessment of water demands and potential water supply sources to meet identified demands through the year 2035. Portions of the Plan will be incorporated into the District's 2015 update of the Regional Water Supply Plan for the District's Northern Planning Region.

WITHLACOOCHEE REGIONAL WATER SUPPLY AUTHORITY

Summary:

- Continued partnership with Citrus County on the Charles A. Black Wellfield
- Regional Water Supply Planning – maximizing traditional and alternative water supplies and avoiding competition for limited groundwater supplies
- Water Conservation – meeting and surpassing the WMD's requirements
- MFLs – staying ahead of the curve with prevention strategies
- Partnering with members and the WMD's in water supply development

To The Governing Board
Withlacoochee Regional Water Supply Authority
Ocala, Florida

Management is responsible for the accompanying financial statements of the Withlacoochee Regional Water Supply Authority (the Authority), an Independent Special District, as of and for the three months ended December 31, 2016 in accordance with accounting principles generally accepted in the United States of America. We performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any assurance on these financial statements.

Management has elected to omit substantially all of the disclosures and the statement of cash flows as required by accounting principles generally accepted in the United States of America. If the omitted disclosures and the statement of cash flows were included in the financial statements, they might influence the user's conclusions about the Authority's financial position, results of operations, and cash flows. Accordingly, these financial statements are not designed for those who are not informed about such matters.

Supplementary Information

The budgetary comparison information is not a required part of the basic financial statements but is supplementary information. The supplementary information has been compiled from information that is the representation of management. This information was subject to our compilation engagement, however, we have not audited or reviewed the supplementary information, and, accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on such information.

WITHLACOOCHEE REGIONAL WATER SUPPLY AUTHORITY

PROCLAMATION

Drinking Water Week

WHEREAS, water is our most precious natural resource; and

WHEREAS, only tap water delivers public health protection, fire protection, support for our local economy, and the quality of life we enjoy; and

WHEREAS, any measure of a successful society – low mortality rate economic growth and diversity, productivity, and public safety – are in some way related to access to safe water; and

WHEREAS, we are all stewards of the water infrastructure upon which future generations depend; and

WHEREAS, each citizen of the Withlacoochee Regional Water Supply Authority region is called upon to help protect our source waters from pollution, to practice water conservation, and to get involved in local water issues by getting to know their water source; and

WHEREAS, members of the Withlacoochee Regional Water Supply Authority, by virtue of their membership, have demonstrated their commitment to the future of this region's water resources.

NOW, THEREFORE, be it resolved by virtue of the powers vested in the Authority's Board of Directors, the Board does hereby proclaim May 7 through May 13, 2017 as Drinking Water Week within the Withlacoochee Regional Water Supply Authority region.

WITHLACOOCHEE REGIONAL WATER SUPPLY AUTHORITY

BY The Honorable Nick Nicholson, Chairman

Withlacoochee Regional Water Supply Authority

LEGISLATIVE UPDATE

March 10, 2017

Budget:

To date, there are 1,205 House appropriations project bills for a total of \$2,579,567,292 in funding requests. Although the House now requires that a separate project bill must be filed for funding requests, the Senate does not require the same. The Governor's 2017 Budget recommendations include \$65 million for springs restoration and \$100 million for water projects. The following are a few House appropriations project bills filed in our region:

Citrus County Suncoast Parkway II Reclaimed Water—(HB 3829 by Rep. Massullo) in the amount of \$6 million in non-recurring funds.

Homasassa River Restoration—(HB 2401 by Rep. Massullo) in the amount of \$350,000 in non-recurring funds.

Kings Bay Restoration—(HB 2315 by Rep. Massullo) in the amount of \$2 million in non-recurring funds.

Silver Springs Nutrient Reduction—(HB 2987 by Rep. Stan McClain) in the amount of \$300,000 in non-recurring funds.

Legislation:

The Authority is tracking several dozen bills including those summarized below, in alphabetical order.

Aquifer Replenishment—(SB 1438 by Senator Broxson/HB 755 by Rep. Albritton) would require new permit conditions for certain projects involving underground injection, and authorizes DEP to develop criteria for advanced water treatment. Although HB 755 has passed the House Committee on Natural Resources and Public Lands, DEP has indicated the bill requires input from stakeholders.

Coast-to-Coast Comprehensive Water Resource Program—(SB 10 by Senator Bradley/HB 761 by Rep. Altman) SB 10 was amended to expand the Lake Okeechobee Reservoir legislation in an attempt to win approval for Senate President Negrón's top priority. SB 10 would: create a new revolving loan program for water storage and supply facilities, create a water reuse grant program, fund projects along the St. Johns River, and provide \$20 million for septic tank conversion in certain areas, among other things. SB 10 will next be considered by the Senate Appropriations Committee. HB 761 has not yet been heard in any committee.

Reclaimed Water—(SB 1686 by Senator Simmons/HB 1357 by Rep. Ponder) would authorize water reuse incentives and would direct DEP to recommend criteria for regulating direct potable reuse water by December 31, 2018.

Water and Land Constitutional Amendment—(SB 1082 by Senator Brandes/HB 663 by Rep. Peters) would set aside \$100 million each year for water supply and water resource development projects identified in a recovery or prevention strategy or in a regional water supply plan, among other things. Neither bill has been heard in any committee.

Water Management—(SB 1700 by Senator Farmer) would expand restricted activities and impose new requirements for water permit applicants to restore MFL's in the vicinity of Outstanding Florida Springs. No House companion at this time.

Water Oversight and Planning—(SB 1300 by Senator Gibson/HB 413 by Rep. Antone) would create a state-wide Water Oversight and Planning Advisory Council to address water supply and planning, water quality restoration and protection, flood protection and flood plain management, and natural systems protection and restoration. Neither bill has been heard in any committee.

2017 Bills (40)

Number	Title	Sponsor	Last Action	Date Foldered
SB 0010	Water Resources	Bradley	03/08/17	02/09/17 09:32AM
