This was an information item only and no Board action was required.

9. Minimum Flows and Levels – Priority Lists and Schedules

Mrs. Suzannah Folsom, WRWSA Executive Director, introduced Mr. Doug Leeper with the Southwest Florida Water Management District Natural Systems Restoration Department who presented a status report to the Board of the establishment of minimum flows and levels (MFLs) in the Authority's four-county area.

Chapter 373, Florida Statutes, requires each of the water management districts to have a Priority List and Schedule for the establishment of MFLs. This Priority List and Schedule identifies water bodies for which the District plans to establish minimum flows and levels and also identifies planned water reservations. Minimum flows and levels are limits set by the District Governing Board for surface waters and groundwater systems that are intended to prevent significant harm to the water resources or ecology of the area that may be caused by water withdrawals. Reservations set aside water from withdrawals for the protection of fish and wildlife or public health and safety.

The Districts are required to update this List and Schedule each year and provide the updated List to the Florida Department of Environmental Protection (DEP) by November 15th. Included as exhibits to this item are the MFLs that have been established to-date, and the proposed Priority Lists and Schedules for waterbodies within the WRWSA four-county area that are to be approved by the District Governing Boards for submittal to the DEP in November. A GIS map of the MFL locations and the current status of the MFL are provided by the DEP Office of Water Policy.

The Water Management Districts will use these MFLs to assess the health of the environment and will limit the issuance of future water supply permits based on monitoring these locations. All MFLs are currently being met except for the Silver Spring MFL, which is listed as "Prevention" which means that the SJRWMD has a Prevention Strategy in place to bring it back to "Meeting" the MFL. This strategy includes conservation, aquifer recharge with the Ocala wetland aquifer recharge park, relocating supply to the lower Floridan aquifer, and increasing use of reclaimed for irrigation.

The most relevant upcoming MFLs to be set will be four locations along the Withlacoochee River, three of which were "rescheduled from 2024 to 2025 based on delayed acquisition of topographic data necessary for hydrologic model development" and the fourth (Lower segment) rescheduled from 2024 to 2026 "to allow for acquisition of critical environmental data necessary for hydrological modeling of the estuarine portion of the river".

The Withlacoochee River has been identified as a potential alternative water supply source for the region, but the potential quantities that could be available cannot be determined until the minimum flows are set. WRWSA will continue to monitor and report on efforts to set these MFLs.

This item was for information only and no Board action was required.

10. Legislative Report

Ms. Suzannah Folsom, WRWSA Executive Director, presented this item. The 2024 Florida Legislative Session is scheduled to start January 9, 2024 and end March 8, 2024. Staff will gather information on relevant bills that are related to conservation and water supply from SWFWMD, 1000 Friends of Florida, and the Florida Engineering Society's Conservation and Environmental Quality Committee, and the House and Senate websites. Hernando County and Sumter County both held their local legislative delegation meetings on October 26, 2023.

This item was for the Board's information only and no action was required.

11. **Attorney's Report** – Mr. Batsel was not present and Mr. James Hartley was introduced as his assistant. No report provided at this time.

- 12. **Executive Director's Report** Ms. Folsom presented the following items which required no action.
 - a. Water Use Permit Demand Summary A summary was in the Board's meeting materials. .

Election of Board Officers

The Board of the WRWSA annually elects its Board officers, including a Chair, Vice Chair and Treasurer at its January meeting. The Executive Director is the Board Secretary who serves in an ex-officio capacity. Pursuant to the Election of Officers Policy, included as an exhibit to this item, the Board may entertain nominations for individual officers or a slate of officers. Typically, the current Vice Chair is nominated to become Chair and the current Treasurer is nominated to become Vice Chair. The office of Treasurer is customarily filled by a Board member from the county without a representative as an officer in the current slate of officers. This practice is informal, and circumstances may warrant nominations and elections to deviate from this practice. Also, pursuant to the Board Policy, the current Chair will chair the complete January meeting. The new officers will take their respective seats 24 hours before the next Board meeting.

Citrus County Commissioner Jeff Kinnard Bryant is currently the Board Chair.

The natural succession would have Commissioner Narverud move into the Chair position, Commissioner Estep move to the Vice Chair position, and a Marion County Commissioner nominated to be in the Treasurer Position. Officers can serve two consecutive one-year terms and Commissioner Kinnard is willing to serve another term as Chair.

The next officer election will be scheduled in January 2025.

SECTION VIII. – Officers: The officers of the Governing Board shall be as follows:

- 1. A Chairman, who shall preside at meetings of the Governing Board; sign, as authorized by the Governing Board, any contracts or other instruments which are deemed to be in the best interest of the Authority; and perform such other duties incident to the office as may be prescribed by the Governing Board.
- 2. A Vice Chairman, who shall act in the Chairman's absence. The Vice Chairman shall perform such other functions as the Governing Board may from time to time assign.
- 3. A Treasurer, who shall be entrusted with the receipt, care and disbursement of Authority funds in accordance with fiscal policies and regulations adopted by the Governing Board.
- 4. If none of the above officers are present at a Board meeting where there is otherwise a quorum, the Authority Board may elect a chairman pro-tem for the duration of the meeting.

Board election of officers.

TITLE: BOARD MEMBER DUTIES AND RESPONSIBILITIES

NUMBER 2015-03 PAGE: 1 OF 4

APPROVED BY: All Suttles AL BUTLER, CHAIR EFFECTIVE DATE: 3-18-15 SUPERSEDES:

The purpose of this Policy is to clarify and facilitate the duties and responsibilities of members of the Board of Directors.

The WRWSA's Board of Directors is comprised of thirteen (13) members who are appointed by the respective member governments governing bodies. Annually in January, members of the Board elect three (3) officers: Chair, Vice Chair and Treasurer, who serve in their respective offices for one year. The following is an outline of the duties and responsibilities of the three Board Officers and the general duties of all Board members.

1. CHAIR

The Board Chair has the duties and responsibilities historically associated with the presiding officer in an organizational setting, as governed by Robert's Rules of Order, as well as certain other specific duties established by Board Policy. The duties of the Board Chair include, but may not be limited to, the following:

- a. Presiding over all meetings of the Board, which includes keeping order, being fair and impartial, enforcing the rules and decorum of debate and protecting the rights of all Board members;
- Being familiar with the basic rules of calling a meeting to order and declaring a meeting adjourned, establishing and following an agenda and the proper steps in making, debating and voting on motions;
- c. Recognizing Board members who wish to speak; no member may speak to a subject under discussion or introduce a motion without recognition by the Chair. When more than one member requests recognition at the same time, the order of speakers will be determined as fairly as possible by the Chair;
- d. Using the Chair's prerogative, when appropriate, to limit member debate by enacting time limits in accordance with Board Policy;
- e. Using the Chair's prerogative, when appropriate, to grant exception to the three-minute time limit allowed to members of the public wishing to address the Board:
- f. Ruling out of order any member of the public who speaks out of order, who fails to address the Board according to Board Policy or who is making profane, irrelevant or inflammatory statements;
- g. Presiding over annual elections by accepting nominations and motions to nominations, putting the nominations to vote and announcing the results in accordance with Board Policy;

SUPERSEDES:

- h. Annually appointing members, committee chairs, committee vice chairs and Board liaisons to any Board and other committees that may be established, after seeking input from Board members.
- i. Signing the official minutes of Board meetings, Board Policies and other documents;
- j. Signing (along with the Executive Director or, in the absence of the Executive Director, another Board officer) Authority checks, either manually or by facsimile signature;
- k. Approving non-scheduled travel outside the Authority or travel to attend conferences or conventions outside the Authority by Board members or the Executive Director, as required by the Authority's Travel Policy when travel is expected to occur prior to the Board's ability to approve such travel;
- Concurring with the Executive Director and General Counsel in the initiation of legal action initiated in advance of full Board approval, if necessary, in the best interest of the Authority;
- m. Consulting with the Executive Director and General Counsel in the procurement of outside legal services necessary to adequately represent the Board and the Authority;
- n. Executing certain documents on behalf of the Board, including agreements for the recruitment, selection and compensation of the Executive Director, Board Policies, Settlement Agreements and certain other documents where signature authority has not been delegated to the Executive Director;
- Making final legislative policy decisions in the event that time frames preclude formal Board action as it pertains to any pending legislation, and reporting the same to the full Board at the next regularly scheduled meeting; and
- p. Other such duties as may be required on behalf of the Board of Directors.

2. VICE CHAIR

The office of the Board Vice Chair generally involves assuming all the duties and responsibilities of the Chair, including presiding at Board of Director meetings, when the Chair is unable to be physically present at a meeting or if the office of the Chair is vacated for any reason. In the case of disability, resignation, non-reappointment or death of the Chair, the Vice Chair shall become the Chair for the remainder of the Chair's term. The Vice Chair may have other duties as assigned by the Chair on behalf of the Board.

APPROVED BY: AL BUTLER, CHAIR EFFECTIVE DATE: 3-18-15 SUPERSEDES:

3. TREASURER

The Board Treasurer has specific duties and responsibilities as expressed by Robert's Rules of Order and by Board Policy. The duties of the Board Treasurer include, but may not be limited to, the following:

- a. Signing, in the absence of the Chair and Vice Chair, either manually or by facsimile signature, all checks issued by the Authority, which are counter-signed by the Executive Director or another Board Officer:
- Signing, as primary signatory, either manually or by facsimile signature, all Authority financial account documents, documents to alter account structure or close accounts, and other financial reporting documents required by statute;
- c. Receiving the Authority's monthly report on cash and investments;
- d. Consulting with the Executive Director and staff in the preparation of the annual budget and annual third-party financial audit;
- e. Presiding over meetings, and assuming all of the duties of the Chair, in the event that the Chair and the Vice Chair are unable to physically be present at a meeting, if the Chair and the Vice Chair have to step down for any reason, or if the offices of the Chair and the Vice Chair are vacated for any reason;
- f. Customarily presiding over Budget Hearings conducted pursuant to Sections 200.065 and 373.536, Florida Statutes, at the prerogative of the Chair; and
- g. Assuming other such duties as assigned by the Chair and on behalf of the Board of Directors.

4. MEMBERS OF THE BOARD OF DIRECTORS

Each Board member has certain duties and responsibilities in the public trust, as set forth generally in Robert's Rules of Order, and as further established by Board Policy, to wit:

- a. Regularly attending meetings, hearings and workshops;
- b. Adequately preparing for meetings, hearings and workshops by reviewing the Agenda and Board Packet and being versed on the issues to come before the Board;
- Knowing the rules of order and debate, having an adequate knowledge of the various motions and parliamentary procedure and participating in debate as appropriate;

d. Accepting Board Committee and other committee assignments as assigned by the Chair and performing assigned tasks in a timely manner;

- e. Complying with laws governing public service, including Florida's Government-in-the Sunshine law and the Code of Ethics for Public Officers and Employees, as well as the financial reporting requirements found in Chapter 112, Florida Statutes and the Florida Constitution:
- f. Calling out a Point of Order only when a serious breach of the rules of debate has taken place;
- q. Voting on all issues before the Board except in the case of a voting conflict of interest pursuant to Section 112.3143, Florida Statutes, which requires that a Board member recuse him or herself in the event of conflicts of interest as outlined therein; and
- h. Other such duties as may be assigned by the Chair of the Board of Directors.

TITLE: ELECTION OF BOARD OFFICERS

NUMBER 2015-01 PAGE: 1 OF 2

APPROVED BY: JIM ADKNS, CHAIR

JIM ADKINS, CHAIR EFFECTIVE DATE: 01-21-2015 SUPERSEDES:

N.A.

The purpose of this Policy is to clarify and facilitate the election process for Board of Directors Officers.

Officer Elections

The Board of Directors shall elect officers from its members in the following order:

- Chair
- Vice Chair
- Treasurer

The Executive Director shall serve as the non-voting Secretary for the Board.

2. Schedule for Elections

Election of officers shall occur annually in January. Elections will take place during the beginning of the Board meeting. New officers will assume offices twenty-four (24) hours prior to the next Board meeting.

3. Procedure for Election of Officers

- a. Separate elections shall be held for each office. The Board shall complete all voting on each individual office before proceeding to vote on the next office. Notwithstanding, a nomination for a slate of officers (Chair, Vice Chair and Treasurer) may be made prior to the Chair accepting nominations for the office of Chair.
- b. Nominations for new officers shall be made orally.
- c. When everyone has had a reasonable opportunity to nominate, the Chair will accept a motion to close nominations.
- d. The Chair shall then proceed to put the nomination(s) to vote. If there is only one nomination for an individual office, or a slate of officers (Chair, Vice Chair and Treasurer) is nominated, the Chair shall call for a vote orally. If there is more than one nomination for an office, the Chair shall call for a vote by ballot. Ballots must be signed by each member when voting.
- e. The Executive Director, with the assistance of the General Counsel, shall count the ballots, and the Chair will announce the results.
- f. Elections shall be determined by a majority.
- g. Should no candidate receive a majority on the first ballot, voting will continue with subsequent ballots until one candidate is elected. In the event three or more candidates are on the ballot, the names of all candidates will remain on subsequent ballots.
- h. If a candidate is present and does not decline, or if a candidate is absent but has consented to the candidacy, the candidate is elected. If the candidate is absent, has not consented to be a candidate and does not immediately decline upon being notified, the

candidate is elected. If a person declines election, there is a failure to elect, and the Board may proceed to continue the election.

i. Elections will be held in accordance with Robert's Rules of Order, except as otherwise specified above.

4. Terms of Office

Board members elected to office will hold office until the next election of officers is held, unless the office is vacated. Officers serve one-year terms. No officer shall serve more than two consecutive terms in the same office.

5. Filling Vacancies

A vacancy in any office shall be filled at the meeting of the Board of Directors at which the vacancy occurs or the next meeting after the vacancy occurs unless delayed to a date certain by action of the Board. In case of disability, resignation, non-reappointment or death of the Chair, the Vice Chair shall become the chair for the remainder of the Chair's term.

6. Practice of Rotating Offices

It is the practice of the Board to rotate offices among the Board representatives from each county, such that three of the four counties comprising the Authority have a representative as an officer (Chair, Vice Chair or Treasurer) of the Board. Typically, the current Vice Chair is nominated to become Chair and the current Treasurer is nominated to become Vice Chair. The office of Treasurer is customarily filled by a Board member from the county without a representative as an officer in the current slate of officers. This practice is informal and circumstances may warrant nominations and elections to deviate from this practice.

Charles A. Black Wellfield - Renewal and Replacement Fund Annual Report

Mrs. Suzannah Folsom, WRWSA Executive Director, will present this item.

Citrus County has submitted to the Authority the annual report for the Charles A. Black (CAB) Wellfield Renewal and Replacement (R&R) Fund, documenting deposits and expenditures for the fiscal year ending September 30, 2023, which is included as an exhibit to this item.

This annual report is required by the Water Supply Contract between the WRWSA and Citrus County. Staff has reviewed this report, and has found that the report is consistent with the pertinent Contract requirements, which state in part:

R&R Reserve Fund Reporting – The County shall provide to the Authority an annual report on contributions to and utilization of the R&R Reserve Fund, describing the date and amount of contributions to the Fund, interest earnings in the Fund; and the date, amount, and description of expenditures from the fund, including the purpose of the capital facility replacement, renewal or major repair. This annual report shall be for the prior Contract Year and shall be provided no later than January 31st in the following Contract Year.

The R&R Fund was credited with \$270,000 in deposits from Citrus County and \$95,865.76 in interest revenue. Expenditures for totaled \$94,970.05 for permit renewal, flow meter repairs, breaker repairs at Well #7, generator tank repairs, motor soft starter, other repairs at Well #7. The R&R Fund balance increased from \$2,036,485.32 to \$2,307,381.03.

See Exhibit

Staff Recommendation:

Dear Ms. Folsom:

Enclosed is a listing of the interest revenue and transfers to as well as expenditures Citrus County made from the renewal and replacement fund for the fiscal year ended September 30, 2023. These expenditures were allowed by the Water Supply Contract between Withlacoochee Water Supply Authority and Citrus County, Florida, dated October 12, 2016. This information is provided so that your records may accurately reflect the change in the amount of this fund. The following is a summary of the transactions in the renewal and replacement fund:

Beginning Balance 10/1/2022	\$2,036,485.32
Deposit	270,000.00
Interest Revenue	95,865.76
Less: Expenses	<u>(94,970.05)</u>
Ending Balance 9/30/2023	\$2,307,381.03

A detailed report of the above activity is attached along with copies of the individual invoices. If you have any questions regarding these transactions, please call me at 352-341-6464.

Residential Irrigation System Evaluation Project Phase VI – Final Report (Q138)

Regional Irrigation System Evaluation Project Phase VI - Final Report

Mrs. Suzannah Folsom, WRWSA, will present this item.

Phase VI (Q138) of the Authority's Regional Irrigation System Evaluation Program began in December 2020 as part of the Authority's ongoing water conservation initiative. Phase VI of the Irrigation Audit Program was funded by and completed in cooperation with the Southwest Florida Water Management District (SWFWMD), Citrus, Hernando, and Marion counties and the North Sumter County Utility Dependent District (NSCUDD) and the Villages Community Center Development District (VCCDD).

The final report details the number of evaluations completed, the estimated water saved, and the cost effectiveness of this phase of the program. Phase VI was completed on time and within budget. A summary of the major findings of the Phase VI effort will be presented at the meeting. The Phase VI final report is provided as an exhibit.

See Exhibit – Final Report (separate document)

Staff Recommendation:

Staff recommends that the Board accept the final report, and authorizes staff to submit it to SWFWMD.

Regional Water Supply Plan Update - Status Report

Ms. Lisa Krentz, Hazen and Sawyer, will present this item.

Hazen and Sawyer will present on the Population and Demand projections that will be used as part of the 2024 Regional Water Supply Plan Update.

The Authority entered into a cooperative funding agreement with the Southwest Florida Water Management District (SWFWMD) in December 2022 (23CF0004079) for Regional Water Supply Plan Update project. The Authority entered into a contract with Hazen and Sawyer in January 2023 to undertake the project.

With the assistance of the SWFWMD, St. Johns River Water Management District, and a Technical Advisory Committee comprised of representatives from member governments and public supply utilities in the four-county region, the Plan Update is being coordinated.

Residential Irrigation Evaluation Programs Update

Residential Irrigation Evaluation Programs Update

Suzy Folsom, Executive Director, will present this item.

Residential irrigation evaluations are great tools to promote water conservation, and help municipalities meet their per capita water usage goals. This is a progress update on the three residential irrigation evaluation programs that WRWSA is currently ongoing.

Phase 6 Residential Irrigation Evaluation Program – SWFWMD

All of the evaluations have all been completed for this program phase. The Final Report is included in this Board Packet. A summary of the evaluations planned and completed is listed below:

Participating Utility	Total Evaluations To-date	Target # of Evaluations	Percent Complete
Citrus	57	53	108%
Hernando	60	44	136%
Marion	70	71	99%
Villages VCCDD-LSSA	20	16	125%
Villages NSCUDD-VWCA	25	32	78%
Total	232	216	107%

Phase 7 Residential Irrigation Evaluation Program – SWFWMD

This program began in December 2022. 66% of the planned evaluation have been completed to date. This program will be complete in December 2025.

Participating Utility	Total Evaluations To-date	Target # of Evaluations	Percent Complete
Citrus	18	29	62%
Hernando	33	44	75%
Marion	13	71	18%
Villages VCCDD-LSSA	36	16	225%
Villages NSCUDD-VWCA	27	32	84%
Total	127	192	66%

Residential Irrigation Evaluation Program Pilot - SJRWMD

WRWSA started this new program in October 2023. WRWSA has been working with Marion County and the City of Belleview to identify the highest residential users. A mailing has been completed and evaluations have started for high water users in Marion County (east of Interstate 75 in the SJRWMD district area). A mailing for the high users in the City of Belleview has also been prepared, and evaluations are expected to begin in late January 2024. 22% of the planned evaluations have been completed in the first quarter.

Participating Utility	Total Evaluations To-date	Target # of Evaluations	Percent Complete
City of Belleview	0	20	0%
Marion County (East of 75)	13	40	33%
Total	0	60	22%

WALK-IN CUSTOMERS,

PLEASE READ IMPORTANT INSTRUCTIONS AND INFORMATION

- If you have sold the real property described in this notice, please send this notice to the new owners or return it to the Tax Collector's office immediately. If you sold the tangible personal property, but were the owner on January 1st of the tax year, you are responsible for the tax.
- E-Billing To receive your tax notice(s) by email please visit our website at <u>www.citrustc.us</u> > SEARCH & PAY ONLINE > Property Tax > Search
- The COMBINED TAXES AND ASSESSMENTS reflect the full/base tax amount as indicated in the box if payment is made in March. Early payments are entitled to a discount, per F.S. 197.162.
 The discount has been deducted and is reflected in the November – February boxes.
- 4. Avoid waiting in line by using these payment options:
 - ONLINE at <u>www.citrustc.us</u>
 - MAIL in the envelope provided
 - DROP BOX at either location listed below
 - PHONE (credit cards only), please call (352) 341-6500

Please note a 2.5% processing fee will be added to all phone and online payments (minimum charge is \$2.50).

Postdated checks will be returned.

PLEASE DO NOT SEND CASH BY MAIL

Make checks payable to:

Janice A. Warren, Tax Collector

Payment must be in U.S. Dollars drawn on a U.S. Bank. Please note, your taxes are not "paid" until your check clears the bank.

- 5. The upper portion of this notice explains the ad valorem and non-ad valorem assessments on your property, which you may keep for your records. To obtain a receipt, return the bottom portion of your bill with a self-addressed stamped envelope. Your cancelled check may also serve as your receipt. When making an inquiry, please refer to the account number shown on your statement.
- 6. If you have not received notices for ALL of your Citrus County properties, please contact our office at (352) 341-6500. Pursuant to Section 197.122, Florida Statutes, "all owners of property are held to know that taxes are due and payable annually and are responsible for ascertaining the amount of current and delinquent taxes and paying them before April 1 of the year following the year in which taxes are assessed."
- Please <u>verify the description, owner name and address</u> of the property. If any errors are found, notify the Property Appraiser at (352) 341-6600 or (352) 564-7130 as soon as possible. This tax notice covers taxes and non-ad valorem assessments for the calendar year January 1 through December 31, as shown on the front.

8. TAXES BECOME DELINQUENT APRL 1ST. If postmark indicates payment was mailed on or after April 1st (delinquent date), the amount due is determined by the date payment is received by the Tax Collector. Payments postmarked or received after March 31st are considered delinquent and will be returned if the correct amount is not remitted.

For <u>real estate and non-ad valorem taxes</u>, beginning April 1st, interest of 3% is added per F.S. 197.172(1). Mid-April, advertising fees are added per F.S. 197.402(1). Tax Certificates will be sold on all unpaid accounts on or before June 1st, resulting in additional charges per F.S. 197.402 (3).

For <u>tangible personal property taxes</u>, beginning April 1st, interest of 1.5% per month is added per F.S. 197.172(3), along with a collection fee of \$10 per F.S. 197.413(10). Late April, advertising fees are added per F.S. 197.413(1). Tax Warrants are issued on all unpaid accounts for levy and seizure of personal property per F.S. 197.413.

- TAX COLLECTOR (352) 341-6500- Responsible for preparation and mailing of tax notices based on information contained on the current tax roll, certified by the Property Appraiser, and Non-Ad Valorem assessments, provided by the levying authorities
- PROPERTY APPRAISER (352) 341-6600 OR (352) 564-7130 Responsible for preparations of the current ad valorem tax rolls,
 assessed value, exemptions, taxable value, assessed owner(s) name
 and address, address changes, and legal property description. Visit
 their website at www.citruspa.org

CORD BYRDSecretary of State

November 1, 2023

Mrs. Suzannah Folsom Withlacoochee Regional Water Supply Authority Lecanto Government Building 3600 West Sovereign Path, Suite 228 Lecanto, Florida 34461

Dear Mrs. Folsom:

As a Florida public agency, you are required by Rule 1B-24.003(11), *Florida Administrative Code*, to submit annually to the Division of Library and Information Services "a signed statement attesting to the agency's compliance with records disposition laws, rules, and procedures." Based on annual statements submitted for fiscal year 2022, we were pleased to report to the Legislature and the Executive Office of the Governor a total of 795,152 cubic feet of records disposed, resulting in a cost avoidance of \$75.2 million for the state of Florida.

For your convenience, enclosed is your agency's *Records Management Compliance Statement* for fiscal year ending 2023. Please report your agency's compliance status in **Section I**, the Compliance Certification. In **Sections II and III**, make any necessary additions or corrections to your agency and RMLO information. Please return **one signed copy** of the Compliance Statement form to the **mailing address** *or* **email address** indicated at the bottom of the form by **December 31**, 2023.

We appreciate your prompt attention to this matter. If we can be of service to your agency, please do not hesitate to contact us at 850.245.6750 or recmgt@dos.myflorida.com.

Sincerely,

Amy L. Johnson, Director

Please complete and return this compliance statement by December 31, 2023 (submit one copy only, please) to:

Department of State Records Management Program, Mail Station 9E Tallahassee, FL 32399-0250

^{*}Section 257.36(5), Florida Statutes: "For the purposes of this section, the term 'agency' shall mean any state, county, district, or municipal officer, department, division, bureau, board, commission, or other separate unit of government created or established by law. It is the duty of each agency to: (a) Cooperate with the division in complying with the provisions of this chapter and designate a records management liaison officer. (b) Establish and maintain an active and continuing program for the economical and efficient management of records."

²Rule 1B-24.003(9), Florida Administrative Code: "Public records may be destroyed or otherwise disposed of only in accordance with retention schedules established by the Division. Photographic reproductions or reproductions through electronic recordkeeping systems may substitute for the original or paper copy, per Section 92.29, F.S., Photographic or electronic copies. ... Prior to records disposition, agencies must ensure that all retention requirements have been satisfied. For each record series being disposed of, agencies shall identify and document the following: 1. Records retention schedule number; 2. Item number; 3. Record series title; 4. Inclusive dates of the records; 5. Volume in cubic feet for paper records; for electronic records, record the number of bytes and/or records and/or files if known, or indicate that the disposed records were in electronic form; and 6. Disposition action (manner of disposition) and date."

INSTRUCTIONS FOR COMPLETING RECORDS MANAGEMENT COMPLIANCE STATEMENT Fiscal Year 2022-2023

If the addressee is no longer at your agency, please forward to your current records management coordinator.

- 1. Make sure you check **Yes** or **No** as to whether you are in compliance with records management requirements. If you do not mark a response to this question, your agency will be recorded as not in compliance.
- 2. Records disposed.
 - a. Indicate the volume of records disposed during your agency's fiscal year 2022-2023.
 - Local government agencies report cubic feet destroyed during the period of October 1, 2022, to September 30, 2023, regardless of the dates of the records themselves.
 - State government agencies report cubic feet destroyed during the period of July 1, 2022, to June 30, 2023, regardless of the dates of the records themselves.
 - b. Record the volume of records disposed in terms of the number of **cubic feet**, not some other measurement such as weight or number of trees saved. Rule 1B-24.003(9)(d)5, *Florida Administrative Code*, requires disposal of records to be recorded in cubic feet.
 - c. Check **Yes** or **No** as to whether you disposed of any records in electronic form. It is not necessary to indicate volume of electronic records disposed.
 - d. If you did not dispose of any public records during fiscal year 2022-2023, write "0." This does not mean you are not in compliance.
- 3. Make sure your agency head or their designee **signs the form** as required by Rule 1B-24.003(11), *Florida Administrative Code*.
- 4. Make any necessary changes to your agency's information or RMLO contact information in the area provided. Please do not erase or cover the information already listed on the statement.
- 5. Make sure you have an RMLO designated on the form. Section 257.36(5)(a), Florida Statutes, requires public agencies to designate a Records Management Liaison Officer (RMLO).
- 6. Indicate on the form if your agency:
 - a. Reports for other agencies, for example, a city reporting for a special district.
 - b. Is reported for by another agency.
 - c. Merged with another agency or was dissolved.
- 7. Return only the compliance statement to our agency. Please do not include our cover letter or copies of your disposition documents. Feel free to include a cover letter or memorandum if you are seeking assistance or need to provide additional explanation regarding your compliance statement. Return the form by email or U.S. mail to the address provided on the form. Do not fax the form.
- 8. Records Management Compliance Statement forms are customized for each agency and so are not available on our website. If for any reason you need another copy of your compliance statement, please let us know. We will be glad to send you another copy.
- 9. To ensure your agency is included in our annual report to the governor the compliance statement no later than December 31, 2023.

Please contact us if you need further assistance completing your agency's compliance statement.

ATTN: AGENCY REAL PROPERTY CUSTODIAN/MANAGER

The Florida Resources and Environmental Analysis Center (FREAC), under contract with the Florida Department of Environmental Protection, has prepared the Florida Public Lands Inventory for 2023-2024. This publication is in partial compliance with Sections 253.03 and 195.073, Florida Statutes, relating to accounting and documentation of public land ownership.

This year the data pertaining to the public land ownership(s) are available through the Public Lands Research Program's website at:

http://floridapli.net

On the website, select the button, *PLI Code Look-Up* and type in the name of your agency. Select the four-digit PLI code that corresponds to your agency's name to view the results. Your agency's four-digit code can **also** be found in parenthesis on the address label of the envelope that enclosed this letter. To use this code to look up your agency's ownership data on the website, select the second button, *Agency Data by PLI Code*, then enter your four-digit code on the screen.

The ownership data are derived from Florida Department of Revenue's tax roll data. These data are provided to facilitate compliance with the statutory requirement. Each public agency is asked to provide county property appraisers with corrective data relating to their real property ownership annually (Section 193.085, Florida Statutes, and Ad Valorem Tax Administration Rule (12D-1.04). Please note that the parcel data provided are taken directly from tax roll information supplied to the Department of Revenue by each county property appraiser's office.

Each public owner should review the ownership data and communicate any changes to the appropriate property appraiser's office so that the tax roll records will accurately reflect your agency's real property ownership.

Should you require a printed copy of your agency's public land ownership data, our office will discuss options for you to obtain a hard copy.

If you have any questions relating to the Florida Public Lands Inventory data, please contact:

Drought vs deluge: Florida's unusual rainfall totals either too little or too much on each coast

By CURT ANDERSON

Dec 12, 2023

Dan Durica checks the mulch in a garden at the Sweetwater Community Farm Wednesday, Dec. 6, 2023, in Tampa.

ST. PETERSBURG, Fla. — In Florida, this year has been a tale of two states as far as rainfall totals, with the southeast coast deluged by sometimes-record rainfall and much of the Gulf of Mexico coast facing a drought.

Counties up and down Florida's west side are under new water use restrictions, especially in one area where the water table has gotten so low that wells could dry up. Now Florida's wettest season is over until late spring.

What's happening in Florida could soon become a reality elsewhere, as farmers and residents increasingly have to deal with changes in weather patterns because of climate change. This means hotter temperatures in summer, more powerful hurricanes and other heavier rainstorms and droughts during unexpected seasons.

"You know, as the climate changes, we're going to have to adapt to these extremes," said Dan Durica, a board member at Tampa's Sweetwater Organic Community Farm. "And so you have to know how to deal with like the boom and bust of the, like, climate chaos."

For most people, the restrictions affect lawn and landscape watering, which accounts for about half the water used daily in the affected areas. For example, in three counties around Tampa Bay watering is only allowed one day a week depending on a resident's address and only then before 8 a.m. or after 6 p.m.

"The whole western coast of Florida has been impacted by this deficit rainfall during the rainy season," said Mark Elsner, water supply bureau chief for the South Florida Water Management District. "With the west coast having a deficit about 30%, we didn't get that recharge that we expected. And as a result, we have lower groundwater levels starting the dry season."

The main driver of the precipitation divide was a weaker than typical high pressure system this summer over the western Atlantic Ocean that led to persistently lighter easterly winds, said Robert Molleda of the National Weather Service office in Miami.

"This wind pattern tends to focus most of the precipitation over the interior and eastern side of the peninsula, rather than a more typical east wind pattern which would focus a lot of the daily summer thunderstorms over the western half of the peninsula," Molleda said in an email.

Indeed, in mid-November a no-name storm with wind gusts approaching tropical storm strength lashed Miami, Fort Lauderdale and nearby areas with readings approaching a foot of rain over three days, In the Florida Keys, the city of Marathon set an all-time daily record for November when 6.68 inches of rain fell in a single day.

In April, a storm that sat over Fort Lauderdale dumped nearly 25 inches of rain in some areas, causing many neighborhoods to flood. And just during the past 90 days, many parts of South Florida have been inundated again with between 150% and 200% of average rainfall totals, according to the weather service.

"All wasteful water use such as hosing down driveways and impervious surfaces, allowing water to flow unattended and using water in a grossly inefficient manner, is prohibited," the Southwest Florida Water Management District website says.

Violators can be fined varying amounts depending on the jurisdiction. In Hillsborough County, where Tampa is located, fines range from \$100 for an initial offense to \$500 for repeated violations, although a warning is given first.

"Today, they're drilling those wells deeper because we've seen water level declines. So those shallower wells are most susceptible to drying out," he said, noting that more than 100 permits for deeper replacement wells have been issued in Cape Coral during the past couple of years.

Farmers have many methods to reduce water use. Practices include slow-drip irrigation, deep mulching and watering at night when there is less evaporation, Durica said.

Even with all the water conservation efforts, Florida's west coast will need rain to truly ease the water shortage.

Forecasters say it's likely Florida will experience heavier rainfall than usual over the typically drier winter months because of a weather phenomenon known as El Nino, which occurs when waters in the eastern Pacific Ocean grow warmer, impacting climate worldwide.

The National Oceanic and Atmospheric Administration predicts a 55% chance of a strong El Niño this winter.

"The hope is that with increased rainfall compared to normal this winter and spring, drought conditions would be alleviated," Molleda said. "The latest drought outlook calls for a likely removal of drought conditions along the Florida Gulf coast sometime between December and February."

Wildwood turns to industry veteran as growth spurs urgency for sewage expansion

By Marv Balousek Villages-News.com November 28, 2023

Wildwood commissioners Monday night designated Garney Construction as construction manager at risk to build the city's new wastewater treatment plant.

Commissioners authorized City Manager Jason McHugh to begin contract negotiations with the company.

PC Construction, the project's previous construction manager, was fired by commissioners last month.

Boosted by home construction in the Villages of Southern Oaks, apartment projects and new businesses, rapid growth has fueled Wildwood's need for more wastewater treatment capacity. One of the fastest growing cities in the nation, Wildwood's population nearly doubled in three years to 30,327, according to a University of Florida estimate earlier this year.

To reduce construction costs, estimated at \$150 million, city officials decided to build a smaller plant and continue operating the existing plant. The two plants will be capable of processing about 5.5 million gallons of wastewater daily.

The only bidder on the project, Garney Construction received 435 of a possible 500 points during a staff team review.

Based locally in Winter Garden, Garney Construction is a national company with offices in a dozen states that specializes in wastewater plant and water treatment projects, including a recent Villages project and the River Oaks Diversion Project in Tampa. In September, the company announced the promotion of three new top officials, including CEO and two division presidents.

Garney is the nation's largest contractor for pipeline projects and one of the leading contractors for water and wastewater projects.

PC Construction was fired after completing upgrades to the existing plant, increasing its capacity to 3.55 million gallons daily. City Manager Jason McHugh said company officials and city staff failed to reach agreement on a permanent contract.

Timetable to replace lead water pipes could be accelerated

By: Erik Waxler, abc Action News

Nov 30, 2023

TAMPA, Fla. — Lead exposure in children is still a problem.

Experts said it can come from paint in older homes or aging water pipes.

Pediatrician Dr. Rachel Dawkins is with Johns Hopkins All Children's Hospital in St. Petersburg.

She said there is added danger for children, whose brains and nervous systems are growing and developing, so any exposure to lead can be concerning.

"We think about lead exposure in kids causing neurodevelopment disabilities, so it might cause some problems with learning. Some problems with behavior. It can cause lower IQs," said Dawkins.

Many cities have older water pipes made from lead.

Now, the Environmental Protection Agency is proposing a new rule that would require them to be replaced within ten years.

That's speeding progress toward a goal from the Biden Administration to remove all lead pipes.

The EPA said Florida has the most lead water lines in the nation.

Dr. Dawkins said she hasn't seen lead exposure create a major issue locally, but it has in other places.

"We've seen in cities like Detroit where this is a huge problem a few years back that children are having a high problem with lead toxicity, and when they traced it back, it was to the water supply for the city. So I think it's important for cities to be proactive in improving the infrastructure of how our water is supplied," said Dawkins.

Children are usually screened for lead when they turn one and again at two years old.

Doctors said excessive lead exposure is also bad for adults, increasing the risk for cancer, stroke, and kidney disease.

The City of Tampa is spending millions of dollars a year to replace pipes. Some are more than a hundred years old.

What does an El Niño winter mean for Florida red tide?

By Jack Prator, Max Chesnes, Tampa Bay Times

Published Nov. 24, 2023

Florida's Gulf Coast is approaching the end of an above-average hurricane season and record marine heat, but it's been a lackluster fall for what's become a common beachgoers' experience: red tide.

Last year, Tampa Bay-area red tide outbreaks started in November and lasted through the winter. The toxic algae kept many people off local beaches and resulted in a series of fish kills.

But this fall's absence of Karenia brevis, the algae that causes red tide, has puzzled researchers.

An El Niño weather pattern, like the ongoing one, usually brings more rainfall to the Southeast. The National Oceanic and Atmospheric Administration is predicting a 70% chance of above-average rainfall there this winter.

In Florida, that can mean more rainwater mixes with nutrients and becomes polluted before it dumps into waterways such as Tampa Bay, the Caloosahatchee River and Sarasota Bay, among others along the Gulf of Mexico.

A growing body of scientific research suggests that red tide-causing organisms feed off that rain runoff pollution, potentially making blooms more intense.

Even if this year's El Niño does become rainier in the coming months, it doesn't mean an El Niño would cause a red tide, explained Bob Weisberg, the former director of the University of South Florida's Ocean Circulation Lab.

"El Niño's effect is relatively minor in regards to red tide. The origin of the red tide tends to be from offshore and moves towards the beach. If it starts killing fish, it can actually make its own nutrients and it doesn't need the runoff from rain to grow," Weisberg told the Tampa Bay Times.

But runoff from extra rainfall can make the problem worse, Weisberg added.

"As winter progresses, and if we get more rainfall, yeah, it might add to an existing appearance of red tide," Weisberg said. "But it's not going to cause it."

Weisberg pointed to 2016, an El Niño year that brought plenty of moisture to the Tampa Bay area. That year, the region's stormwater infrastructure was stretched to the limit and millions of gallons of sewage dumped into area waters.

Red tide flared up that year, defying forecasters and researchers who expected a mild year. This year, the opposite has held true: Weisberg expected an intense red tide in October but it didn't pan out. And overall, it's been a quiet fall compared to last year.

One theory for why? Hurricane Idalia.

"Idalia went right over the continental shelf where we believe red tide forms," Weisberg said.

When red tide cells rupture, or break, they release toxins into the air. That's what you feel in your throat when a red tide is blooming at the beach.

But turbulent water, like the angry seas caused by Idalia, can help rupture those red tide cells earlier. That could mean less red tide makes it to shore, according to Weisberg.

"Idalia really stirred up the water this year," he said.

That turbulent water is expected to last through the winter, as El Niño's westerly winds increase storm chances.

But this windy weather is far weaker than the strength of hurricane winds, and El Niño's effects won't reach the scale whipped up by Idalia, said Ben Kirtman, an Earth sciences professor at the University of Miami's Rosenstiel School of Marine, Atmospheric and Earth Science.

"I would expect our winter season to be more windy, so I would expect more turbulence in the ocean," Kirtman said. "Is it enough to really break up the risk of red tides? I don't know."

Climate models show the current El Niño has entered its peak, which is expected to run through January. But the weather pattern likely won't be fully gone until June.

This year's El Niño is partly to blame for the summer marine heatwave, Kirtman said. And while surface temperatures are cooling, they are still higher than normal.

In the Gulf of Mexico and along Florida's east coast, water temperatures are still 1 to 2 degrees Fahrenheit above average for this time of year, Kirtman said.

This lasting heat could help fuel red tide if an algal bloom does break out.

A 2019 study published by Florida State University researchers found that warmer waters resulted in increased growth rates for Karenia brevis. Another study showed the algae may release more toxins in warmer climates.

On paper, heat combined with runoff provided by increased rainfall created ripe conditions for red tide to proliferate. Still, researchers aren't sure how a red tide event and a strong El Niño would interact this winter.

Kate Hubbard, who leads the harmful algal bloom program at the Florida Fish and Wildlife Conservation Commission's research institute, said there is an ecological window where red tide benefits most from nutrients provided by runoff.

An algae bloom would have to happen "in the right place at the right time" for El Niño to have an effect on a red tide outbreak, she said.

With no coastal blooms yet this fall and six months left in the current El Niño cycle, Hubbard said it's anyone's guess what might happen.

"It makes it even more difficult to assess since we are still waiting to see how intense either will be," she said.

How to stay safe near the water:

- Do not swim around dead fish.
- Those with chronic respiratory problems should be careful and stay away from places with a Red Tide bloom. Leave if you think Red Tide is affecting you.
- Do not harvest or eat mollusks or distressed and dead fish from the area. Fillets of healthy fish should be rised with clean water, and the guts thrown out.
- Pet owners should keep their animals away from the water and from dead fish.
- Residents living near the beach should close their windows and run air conditioners with proper filters.
- Beachgoers can protect themselves by wearing masks.

Current Projects Funded by RESTORE Act

Aquatic Services Manager Carla Burrmann updated the Board of County Commissioners (BOCC) on projects that are currently funded by the RESTORE Act Oil Spill Impact Allocation. RESTORE is the acronym for "Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States."

In July 2012, President Obama passed the RESTORE Act, which directs 80 percent of civil and administrative Clean Water Act penalties levied in connection with the Deepwater Horizon oil spill, which occurred on April 10, 2010. The funds collected are placed in a Restoration Trust Fund (RTF) and then channeled through five different "pots" of funding. Funding will be complete for the RESTORE Act in 2031.

Hernando County receives funding from Pots 1 and 3. Pot 1 is a Multi-Year Implementation Plan (MYIP) and is administered by the United States Treasury Department. Projects receiving funding from this mechanism require a grant application to be submitted.

The total of Pot 1 allocated to Hernando County through Fiscal Year 2031 is \$4,644,045.

The main funding source for Hernando County is Pot 3 Funds. These projects have already been approved as part of a State Expenditure Plan (SEP). For this, Hernando County receives \$12,660,000. This amount of funding will not increase.

Projects that qualify for RESTORE Act funds include mitigation, restoration, and protection of natural resources, marine, coastal, and conservation plans, improvements to affected state parks, and promotion of tourism, seafood consumption, workforce development and job creation.

Projects funded by Pot 1 are the current Linda Pedersen Park improvement project (\$561,000) and Bayou Drive Improvements (\$737,500). There is currently \$1,229,054 in remaining funds that may be allocated to other projects. To use these funds, another project will need to be identified and approved.

Commissioner Brian Hawkins suggested eelgrass restoration to protect coastal areas while using existing funding. Chairman John Allocco recommended the Pine Island canal dredging be considered, a project that has been deferred in previous years. No decisions were made during this meeting, and discussions will continue.

Pot 3 is the Spill Impact Allocation, which currently funds the artificial reef project (\$2,405,070). Other projects funded through this allocation are Coastal Habitat (\$807,421), Waterway/Gulf Access Program (\$4,478,025), Septic to Sewer Conversion (\$2,582,410) and Calienta Street (\$4,682,788).

County Administrator Jeff Rogers expects to see projects removed from Pot 3 as costs for these projects continue to rise. "Not all of those projects will be able to stay (on the list)."
